

EXPLANATION OF COMMISSION DETERMINATIONS ON ADEQUACY

in

Internal Combustion Industrial Forklift Trucks from Japan Inv. No. 731-TA-377 (Review)

On July 2, 1999, the Commission determined that it should proceed to a full review in the subject five-year review pursuant to section 751(c)(5) of the Tariff Act of 1930 (19 U.S.C. § 1675(c)(5)). With respect to this review, the Commission determined that both domestic and respondent interested party group responses to its notice of institution were adequate and voted to conduct a full review. Regarding domestic interested parties, the Commission received responses from domestic producers that collectively account for a significant portion of U.S. production of the domestic like product. Regarding respondent interested parties, the Commission received responses from Japanese producers/exporters that account for the majority of Japanese production and from one U.S. importer of subject merchandise from Japan.

A record of the Commissioners' votes is available from the Office of the Secretary and at the Commission's web site.
